Self-learning ----- Excellent

Problem Solving ---- Efficient

PROFILE

I love to challenge myself to learn new things. And I also love sharing what I've learned. My experience as a programming tutor reflected me on my research skills, organizational skills and my improving my learning techniques. Now, I have decided work as a full-time developer to learn and work on more advanced technologies. And share the knowledge and skills I gain along my career.

I'm developing my portfolio in MERN stack for web dev and python for data related solutions. Please visit thureindev.github.io for my works, visualized.

EXPERIENCE IN PROGRAMMING

Jan 2020 - Jul 2021
Yangon Institute of University Studies

PROGRAMMING TUTOR

I taught basic programming concepts and computer fundamentals to college entry-level students. I love teaching because it helps me learn better. Teaching other people motivates me to read more about the topics. Hence, I learned a lot myself from my teaching career. I left the job I loved because I have decided to work as a developer. So that I can teach more advanced topics in the future.

Sep 2017 - Dec 2017
REVOTECH

IOS FRONT-END INTERN

After achieving my computing diploma, I worked as intern programmer at REVOTECH digital agency for about 3 months. I learned day-to-day operations at digital agencies. After I finished I continued self-study on tech and business before I joined BBA programme.

EXPERIENCE IN OFFICE WORK

Sep 2019 - Feb 2020
Knowledge Hub Institute

OFFICE ADMINISTRATOR

After graduating BBA, I worked at a learning Institute as an office admin. My responsibilities were managing day to day operations at the office and managing student facilities. It was because COVID-19 hit Myanmar on March 2020, the institute stopped operating.
